

Our Aim

In September 2019 it was announced that Corby was selected as one of over 100 towns to take part in the government's new 'Town Fund' initiative to unleash the full economic potential of over 100 places. The proposed Corby Station Link scheme comprises of:

- Improved connectivity with new and upgraded existing crossings.
- Proposed design in accordance with the principles of LTN 1/20 guidance.
- Installation of sensors which will provide information on road user movements and air quality data to support future schemes.
- Provision of segregated cycleway and footway facilities wherever possible and improvement to unsegregated sections along the scheme extents.
- Closure of existing underpass which will eliminate risk of conflicts on steep and dangerous ramps between non-motorised users, and installation of footway at carriageway level.
- Resurfacing works to footways and carriageway within the scheme extents.
- Highway drainage and street lighting improvements within the scheme extents.

How to get involved...

Contact us

Visit our drop-in sessions in The Cube, George Street Corby, NN17 1QG. We will be there between **10am and 4pm** on the following days:

- ◆ **Tuesday 28th November**
- ◆ **Thursday 30th November**
- ◆ **Monday 4th December**
- ◆ **Wednesday 6th December**
- ◆ **Friday 8th December**
