Autumn 2024

Update on Corby Train Station to Town Centre link road

Works progress so far:

- Full consultation of the scheme has taken place
- The projects installation of traffic and air quality monitoring sensors around the town is now complete. To see more on this please visit the Corby Towns Fund website
- Minor vegetation removal on Station Road
- New kerbs installed on phase 1
- Sections of Station Road footway complete, with tarmac laid
- Works have started along Station Road/St Marks junction
- In the coming weeks, work on Elizabeth Street will switch to the northbound side and the one-way access system will be via the southbound carriageway. Signage onsite will be updated with the date 2 weeks before the transition.
- Street works are also making good progress, we have removed sections of the old footway and are preparing for the new layer

We would like to thank everyone for their patience and understanding during these works by **following the diversion routes in place**. We would like to remind everyone that **all businesses remain open** and accessible as normal. Access for residents continues to be in place. Please ask our onsite team for assistance if needed.

You spoke, we listened:

Concerns were raised at the start of the consultation regarding the St Marks junction and how busy the area is. Therefore, we are now using a temporary traffic signal system. This system is a stand-alone temporary traffic light system which copies the pattern of the permanent traffic signals. Upgraded permanent signals will be added at the junction during a later stage in these works. This intelligent system will help to minimise congestion.

Planned Work Dates:

The **overall scheme** began on the 12th August 2024 and will continue until spring/summer 2025.

Phase 1 which covers Elizabeth Street will continue until 21st January 2025 with no work taking place in December 2024.

Phase 2 covers Station Road/St Marks junction which is planned to complete on the 25th October 2024.

Things you need to know:

Please do not hesitate to contact us with any queries at: CSL@kier.co.uk
