

Corby Station Link Road

Tree Management

Planting Summary

A significant tree-planting initiative is planned for **300 trees**.

As part of the Corby Station Link Project 25 trees have already been planted in Coronation Park. The remaining 275 trees will be planted at various locations across Corby.

These include:

- 100 trees along Oakley Road
- 75 trees within the Tresham College grounds
- 5 trees in area near KFC
- 38 trees in West Glebe Park
- 12 trees near Diamond Way
- 20 trees in Charter Park
- 13 trees near Tunwell Lane
- 12 trees near Seaton Crescent

The selected tree species are well suited to the site conditions and will offer a range of benefits, including spring blossoms and autumn colour. A combination of younger trees (1.8–2.1 m tall) and more mature specimens (2.4–3.0 m tall) will be planted.

All planting will take place during the 2026 planting season, between January and March and maintenance plan will be in place to support their development and growth.
